We are immensely pleased to share one of our biggest dreams.

IN WHAT FOLLOWS, you will find detailed information on the economic status of Nepal accompanied by a persuasively written and well-researched proposal for our vision.

Divyaghar is a sanskrit portmanteau meaning "sacred home"—and a "sacred home" is precisely what we seek to create. Using our combined years of experience in arts spaces, monasteries, and temples worldwide, we plan to develop a never-before-attempted home for spiritual seekers, artists, and adventurers. Amidst a world of rampant materialism, mindless consumerism, and a rapidly increasing pace of life, people from all different parts of highly-industrialized societies profess the need for a pacific, majestic experience of freedom in the form of a safe and accessible home-away-from-home. In addition to the needs of the urbanized world, Nepalese needs for job opportunities, conceptual exposure, and self-expression can be met by our model. With the current lack of domestic opportunities for awareness and exposure to artworks, artists and art spaces, Nepalese are prone to, and often do, appreciate their own culture less. For that reason, we solemnly believe that Divyaghar could meaningfully alter the lives of several thousands of Nepalese and travelers every year. Founded upon an incomparable commitment to service and ethics narrowly, to culture and arts specifically, and to spirituality and society broadly, Divyaghar has the potential to become an international beacon for cultural reconciliation and art making.

Besides our idealism and enthusiasm for the creation of a sacred space, there are several key economic factors which make our plans viable. Nepal is home to a growing tourism sector on the verge of explosive growth, with inexpensive real estate only miles from the tallest peaks in the world. Placed conveniently between India and China, the world's two fastest growing economies, Nepal is soon-to-be a burgeoning economic hub. Beyond these factors, our high prospects of success come from our first-hand understanding of domestic social conditions and our accumulated insight into the minds of spiritual tourists. It is our belief that the time for investment is now.

SYNOPSIS & OVERVIEW

NEPAL IS A FAST DEVELOPING SMALL COUNTRY sandwiched between India and China with an abundance of untapped natural resources, insanely picturesque landscapes and surprisingly cheap labor. With its general lack of infrastructure and subsistence economy, the average Nepali makes only a few dollars a day. Despite their lesser earnings, many Nepalis own swaths of extremely expensive real estate, priced anywhere from $75k to several millions of dollars. You could not tell from the size of their houses, the possessions they own, or the modest and humble lifestyles they choose to live, however—as one Nepali has said it, "The country is poor but Nepalese are rich."

Indians, Chinese, Singaporean and Japanese are realizing the geographic significance and ease of starting profitable industries in the underdeveloped economy which has increasingly powerful purchasers and a growing international notoriety. Money is dumping into the country from outside its borders to secure a stake in the emerging economy. The disparity of value in Nepali currency makes purchases particularly inexpensive for foreigners; one Nepali rupee is approximately one US cent. Nepalis who have established themselves in foreign economies such as US, Australia, and Japan send remittances back to their families to reinvest domestically. Most of the arrangements of foreign investors will have informal returns since personal investment is de facto forbidden. Foreigners must start businesses to invest. Because of this, most investment is done with Nepalis as a proxy. The country's constitution, which stipulates the interactions of direct foreign investment, was only recently written. One thing is sure, the foreigners are coming and they are bringing business.

Land prices are a case study in the increase of value soon to happen in the economy. Pokhara, a particularly scenic city, second only to Kathmandu in population, is in full view of the Himalayas. As a thriving population center, with modern transport and modern shopping, amazing tourist destinations and attractions, and nearby isolated mountainous villages, Pokhara has a lot to offer for tourism. Because of its rising importance in Nepal, it is the primary target of many real estate developments international and local. The Nepali government is planning, within one year, to build an international airport in Pokhara which will bring a flood of foreigners looking for lodging as well as spike land prices in the surrounding region by two or three-fold. It is becoming a land grab for the more shrewd investors in the region, with several 5-star hotels planned to prop up overnight and several other lands being held onto in hopes of quick resale. Already, residents of Pokhara have seen drastic increases in the market value of their land over the past 5 years of development.

With even the basic facts illuminated, it becomes clear that investment in Nepal's growing economy can offer substantial returns. Despite destabilization with recent disasters, the opportunity remains visible. As a result of the destruction and international notoriety that came with it, tourist infrastructure will be rebuilt stronger and faster. Nepal is surrounded by two of the fastest growing and largest export economies in the world – it is the number two supplier of fresh water next to Brazil, with its surrounding regions reliant upon Nepalese water flow for hydroelectric power. Outside of water, Nepal is a regional exporter of wool and tea. Both India and China are eager to either annex Nepal's valuable and untapped territories or make puppets of Nepalese governmental structures. Inevitably, global geocapitalist forces will overtake Nepal through persistent introduction by the hands of its two super-powered neighbors. As Prithivi Narayan Shah, historic leader and founder of the country, once stated, "Nepal is a yam between two large stones." Already, Nepal depends on India for a dearth of its imports (cultural and material) and communicates with China its needs for new infrastructure. It is staged to be a battlegrounds for competing world powers to yield large returns.

Since both countries are locked out of the land by the mountainous surroundings, a situation of relative balance is struck between Indian and Chinese governments.

Additionally, their interests compete, so any one unauthorized move will be countered dramatically, throwing the region into a period of destabilization. Since neither country desires regional instability, neither superpower may easily gain the upperhand by doing anything which could upset the other power (producing deadlock of sorts).

To get to a place of strength and self-sufficiency, Nepal needs commercial enterprises now more than ever. Nepalese need domestic opportunities that will prevent them from exporting their remaining workforce to the surrounding super-economies. Any of the businessmen we spoke with admitted this reality, and pointed out to us that personal investments in other domestic industries would be premature. Tourism is the go. While Nepal has other emerging services and needs such as power, advertisement, transportation, IT and utilities enhancement, few of these industries could be impacted by small direct investments by individual investors. Instead, investments in other domestic sectors would require large scale/indirect development done by governments and NGOs in tandem over longer periods of times for anything resembling substantial returns. In other words, outside of Tourism, the stakes are higher and the game is longer.

Right now, some long-standing hotel owners are becoming embittered at the foreign presence and influence. Therefore, it becomes necessary to empower Nepalese in the process of offering goods and services. Empowerment must go beyond mere cultural appropriation and wealth distribution. There is something grand to be gained when Nepalese are financially improved, culturally enriched, put into positions of management and offered stake in the decision-making processes. Not only does this ease ethnic tensions, it creates a massively multiplicative model allowing for duplication in other locations within the country.

If the analysis of Nepal's tourism potential is accurate, one can imagine a series of Sri Lankan, Chinese, Japanese, and Malaysian hotel chains which are soulless replicas, each employing Nepali people only as janitors, busboys, or groundskeepers. Because of the relative improvement in pay from these stronger economies, many Nepali workers will abandon subsistence agriculture to fill these roles. The result: domestic economic ruin ... money generated will swell, but a majority of that money (the untaxed and untarriffed) will return to the pockets of CEOs stationed in the countries which originated these industries. Hence, very little of this money can have trickle down effects. In addition, the current diversity of goods manufactured will dissipate as Nepali workers focus on getting the highest paying jobs which only generate goods/services for foreigners. Without intervention, there is an oncoming crisis.

To truly maximize off the tourism situation in Nepal without harming the Nepalese, means that goods, services and culture must be produced for domestic consumption, not just foreign tastes. A series of cultural arts programs and educational experiences must be offered alongside employment opportunities. Internships to young and emerging career professionals must be present. Fair wages must be distributed. Mobility both in pay grade and responsibilities must be lateral and vertical. A plethora of important programs must be designed which keep in full view the cultural threat of enticing foreigners for economic growth, yet encourage Nepalese involvement in the growing economy.

Fortunately, Nepal has the benefit of having a decently large population for its size. That means it has the human power and labor capital to produce goods and services worth export aside from tourism. Unfortunately for many nations, their domestic economies never benefited from tourism because their populations are only several million people. In those cases, tourism becomes a bubble – there is too little specialization –and tourism with no division of labor is revealed as an unsustainable mechanism for exploitation. Moreover, a small population size doesn't allow new industry to grow effectively, since virtually all of the lowest class will be involved in the prevailing industry as wage workers while the upper classes will retain jobs in better sectors. However, in a larger more distributed population, upper classes can move horizontally and may occupy top-tier management and owner positions as a way of securing wealth and power. In order to be non-exploitative (and, even, beneficial), a reinvestment strategy for tourist ventures must be designed that develops other sectors and creates skilled Nepali laborers capable of transferring their skills to new and emerging sectors. This ensures that every Nepali laborer leaving their industry of origin will be equipped to return and/or transfer with better training and job readiness. An enriched labor force leads to enriched economy.

KEY TAKEAWAYS

1

2013 Gross Foreign Exchange Earnings for Nepal Tourism was $429, 216, 000 USD this is a substantial and consistently growing portion of the $19.34 billion GDP . Every reliable statistic found predicted substantial growth in the Nepali Economy, with special regards to Tourism. As it stands, Tourism accounts for anywhere from 3 to 5% of the GDP. The city of Pokhara accounts for only a small portion of the Tourist industry; a majority of tourist dollars are spent in Kathmandu. Even comparing hotel occupancy rates, shows that amongst better hotels. hotels located in Kathmandu consistently outperform hotels in Pokhara by a margin of 20+%. As such, Pokhara, with its growing notoriety, is positioned for explosive growth in the next few years. Though riskier, the ROI for a new competitor in the hospitality industry appears much more rewarding in Pokhara than in other cities for the foreseeable future.

2

2013 Average Expenditure was $538 USD per visitor and $42.8 USD per tourist per day. The objective is to create an eco-system where the largest possible portion of foreign expenditure is done within a single environment. This demands an environment which is all-inclusive providing lodging, food, entertainment, transportation and sight-seeing opportunities within a competitive price range of what is available off-site. Tourists typically value convenience and safety over affordability. Knowing this allows competitors in the hospitality industry to absorb goods and services from extraneous industries and offer them at a premium. An easy way to beat out competition is to avoid this form of price scalping and offer a plethora of services upfront and on-site at decent cost.

3

Though Nepal is one of the smallest countries in the world, its population is fairly large, with around 31,551,305 people. The economic freedom score is only 51 out of 100, with 64.68% of the population of working age (15 – 64 years old) and a median age of 22.9 years. Only 18.6% of the population lives in urban areas and Nepal suffers from a nearly 50% unemployment rate. A substantial portion of the population (disproportionately women) are still operating on subsistence agriculture. Legitimate labor opportunities are scarce, and the Nepali people, especially the women, are set up to be exploited with the coming wave of foreign entrepreneurship as they flock to the cities for work experience. Because blocking this investment would only hold back development in the region, the best subversion tactic appears to be competition. Nepali workers, especially women, must be offered fair jobs with decent benefits and upward mobility.

4

With 92.4% of total power in the Nepali electricity production grid being provided by hydroelectricity, the Nepalese have developed a way of life which is largely independent of the fossil fuels the Western world has become so accustomed to. For that reason, the general population is more amenable to progress in fields of green energy. Already, many Nepalis have solar cells installed for domestic use and frequently draw power for their homes from batteries hooked up to their electric system. Many of the hotels in Nepal experience 'power cut' which is downtime during which no power may be drawn from the grid. During this time, they are expected to produce their own power to light stairwells or power water heaters. Gasoline generators are one strategy, but with the high cost of fuel (imported from India), they are not a sustainable solution for a business hoping to offer uninterrupted services. Thus, it would be wise to invest in energy solutions which are both renewable and uninterrupted. In that regard, small scale implementation of wind and solar both seem promising.

5

Compared with the USD, labor costs are exceedingly cheap. An estimated 102 NPR to 1 USD guarantees that even most of the highest corporate Nepalese salaries would not exceed 250,000 USD. For example, the president's salary is 109,410 NPR/month, which when converted using the aforementioned conversion rate comes out to roughly 1072 USD/month or around 13,000 USD/year just barely meeting the US poverty line. These sorts of comparisons do not account for purchasing power parity, but they are illuminating for the types of opportunities present for entrepreneurs soliciting investment from foreign parties. Staffing should only account for a minority portion of expenses. A foreign investor would be wise to invest in the Nepali economy now, while their dollar will go substantially farther than it could elsewhere.

6

"Customers today are not only looking for quality goods and services but also the provision of memorable experience. Quality service is important but not sufficient. It needs to be unique and memorable. Thus creating customer value through innovation is the first and foremost challenge of hospitality industry today and in the days to come." (R.P. Ghimire) Operating with a focus on spiritual or cultural elements that are hard to imitate and too expensive to replicate can cut a substantial portion of competition. Additionally, the involvement of locals into the structure of a Tourism business offers incomparable chances for cultural immersion. To truly innovate, a business should avoid the museum-ification of cultural experience and give people hands-on interactions with others interested in exchange.

7

"Information technology is a major factor influencing economies of scale and operational efficiency as well as shaping the opportunities for hotel industries to organize themselves so as to address the need of very dynamic and transparent online business environment. Therefore, tourism and hospitality industries should update themselves in order to catch up ever changing information and communication technology which is getting smaller but with high and far-reaching effects." (R.P. Ghimire) Indeed, in line with the theme of innovation is the involvement of unique technologies that have yet to impact Nepali industries. Many, if not most, of the tourism and hospitality websites for Nepal are unprofessional by today's standards. One can only imagine the types of software used for management of guests and resources. Lack of adequate technologies can frequently contribute overwhelmingly to overhead costs and logistics issues. Any hospitality business with different types of guests owes it to themselves to embrace the ease and convenience of computer systems. Moreover, with little cost and a lot of planning, it is possible to design a state-of-the-art website and software--- nor is it unimaginable to open-source or license the software to others in the industry looking for more advanced management tools.

PROPOSAL

We propose a multi-phase construction project which encompasses a hotel and lodge, spiritual center, and artist residency. We believe that each of these aspects adds cultural importance and experience to Nepal. Furthermore, the diversity of services offered by each compounds into a unique whole incomparable to what currently exists in the tourism sector of Nepal.

Divyaghar

Sacred House of Nepal

MISSION & VISION

Mission Our aim is to unite people from all walks of life, offering them the highest quality lodging, world-class mindful entertainment and a global culinary experience. We strive to promote cultural awareness while honing spiritual insight and inspiration, supplying interested guests with time and space to do the important cultural work of producing art.

Vision Divyaghar is a sacred home for seekers, a spiritual refuge and a cultural oasis. Our offering is the gift of unconditional love in the form of uncompromising customer service, the impression of lasting architectural artifacts and a feeling of rejuvenation born out of breath-taking views of nature. It is our pledge that no one leaves the grounds of Divyaghar without a life-long memory.

ORGANIZING PRINCIPLES

1. Quality Lodging

LASTING ARCHITECTURE AND ARTIFACTS

▪ On-scene artists constructing hand-made copper and clay statues, contributing to painted ceilings, columns, and spirals. ▪ Hugely symbolic spiritual and cultural pictures, scriptures, from a variety of backgrounds and traditions (hindu, islamic, tao, buddhist, coptic christian, native american, etc.). ▪ Opt for hand-made goods wherever possible, focused on artisanship over quantity—better to have few high quality something, than tons of cheap anything.

UNIQUE CONCEPTS IN DESIGN

▪ Mix of traditional and new-age architectural building techniques. ▪ Usage of sacred geometric forms and ratios in blueprints. ▪ Incorporation of local goods (mud, stone, bamboo, sand) into basic structure, more advanced goods (glass, brick, marble, copper, wood) into full build-outs and décor. ▪ Use of arcology and geoscaping principles, reducing impact on environment while hosting large populations at a time. also, embracing biodiversity, rather than fighting nature and wildlife.

COMFORT AND CLEANLINESS

▪ Environmentally-friendly cleaning products and highly trained cleaning staff. ▪ No pollute and no waste policy, focused on preventing destruction of local natural resources by re-use, reduce, and recycling principles. ▪ Re-usable copper pots and vessels with hand-made high-quality linens. ▪ High-standard sanitation practices (disinfection of sheets, pillows, cups, floors, bathrooms) and regular dusting of stationary objects

2. Mindful Entertainment

SPIRITUALLY FULFILLING ACTIVITIES

▪ Activities: guided meditations, nature walks, cultural tours and discussions, musical performances, spiritual discussions.

NO BOREDOM POLICY

▪ around-the-clock programming offered (but not enforced), including activities & food for night owls/insomniacs/early risers.

FUN AND HAPPINESS, NOT PROFANITY

▪ As a sacred space with aims of spiritual improvement, intoxicants like alcohol may be partaken in – but there will be no space for reckless abuse or mindless fun. ▪ Family-friendly to a point, while certain words and images may be difficult for children of certain ages to understand – the general atmosphere should remain family appropriate

3. Global Culinary Experience

ORGANIC, GLOBAL CUISINE

▪ a culinary experience informed by traditions around the world with a truly cosmopolitan palette of spice blends and flavor profiles capturing the best from each region ▪ suggestion solicitation process from guests, allowing them to re-shape the menu for their next stay, garnering influence from supportive cultures around the world ▪ after every meal, a guest is handed a brief feedback form, which allows them to give instant feedback on what they ate and how they felt about their dining experience

VEGETARIAN AND VEGAN FOCUSED

▪ all dishes cooked without meat but in a way that meat eaters will enjoy ▪ top-notch techniques in creating meat variants, high protein meals and new takes on dishes ordinarily eaten with meat ▪ nearby meat options told to customers asking for meat

4. Cultural Awareness

CULTURAL EXCHANGE WITH ALL GUESTS

▪ cultural referral program at the end of each stay, guests can make suggestions to changes in menu at the restaurant, new spiritual services, and goods ▪ paid language learning opportunities for all guests

PRESERVATION OF NEPALI TRADITIONS AND IDEAS

▪ statues, placards, collection of artifacts and stories from Nepal's history ▪ periodic invitation to historians and tour guides to explain the history of the land

REGULAR PROGRAMMING

▪ establishment of long-standing traditions, such as music festivals, religious retreats, poetry slams, art competitions

5. Sustainability & Balance

LOCALLY SOURCED FOOD GOODS WHERE POSSIBLE

▪ community supported agriculture schemes with local farmers, where they are expected to produce a certain number of raw ingredients (eggs, honey, greens, vegetables, herbs, fruit if possible) in exchange for stable payment ▪ pulling of foods directly from our trees & gardens, when in season

INTEGRATION OF LOCALS INTO BUSINESS MODEL

▪ locals from area offered jobs as groundskeepers, and other part-time contributors in an effort to bolster local economy and develop partnerships

USE OF SUSTAINABLE ENERGY TECHNOLOGIES

▪ wind mills and solar panels to off-set power costs, next-gen power saving schemes ▪ well-water and rain-water use rather than pulling water from municipality ▪ energy reduction building techniques, highly insulated walls, low or no-flush toilets, low-water ground cover foliage, porous concrete and erosion-resistant stone. ▪ no waste mentality ▪ commitment to composting and other responsible ways of getting rid of trash ▪ rain-barrels installed to collect rain and used in drought situations ▪ innovative strategies for dealing with waste, including the manufacture of manure and other helpful byproducts for the local economy

6. Uncompromising Customer Service

UNCONDITIONAL LOVE FOR CUSTOMERS

▪ We adjust all of our standards to what makes our customers happy; in our initial guest interview customers are asked questions about their preferences regarding default services
▪ Absolute focus on service innovation, finding new ways to make people happier.

COMPLIMENTARY GOODS & SERVICES WHEREVER POSSIBLE

▪ Free morning tea served to guests door with aarati, different snacks consistently available in lobby, hot or cool towels available upon request, foot bath, smudging on call

HUMAN TO HUMAN INTERACTION

▪ No customer left behind policy... never leave a customer to fill out a form, run an errand, punch-in information without asking first
▪ Face-to-face not face-to-screen communication. give everyone the gift of eye contact, even if that means registering their information moments after dialogue
▪ Employees are encouraged to use strong body language and gesturing, communicating when appropriate through touch.

7. Arts Enhancement

ART REFLECTED IN DESIGN

▪ artful use of materials, spaces highly decorated and designed with aesthetic prominence ▪ attention to detail and sensory experience of space, avoidance of "top-down" architecture, with everything built to human scale

A LOVE FOR ARTISTS & CREATIVES

▪ rampant opportunities for contribution to the grounds ▪ special application artist residencies and work-to-stay programs for skilled laborers

TYPES OF GUESTS

SS
Standard Stay

$80 FOR 2 GUESTS, $10 FOR EACH ADDITIONAL Typical arrangement of foreign and local guests, any guest who comes to divyaghar to stay for more than a single night consecutive stay—offered standard hotel accommodations and charged a semi-competitive but high-end rate per day. Discounted package deals accessible regularly.

ES
Enhanced Stay

$125/NIGHT FOR 2 GUESTS, $5 FOR EACH ADDITIONAL Typical arrangement of high-end foreign guests. Upgraded standard stay. Consistent, but limited time offer to would-be standard stayers. Includes additional perks and features that a standard stay does not include. Offer of premium hotel accommodations and charged the highest affordable rate per day.

LM
Local Membership

$600/YEAR, $50/NIGHT FOR 2 GUESTS, $5 FOR EACH ADDITIONAL Typical arrangement of area locals and pokhrelis. Annual fee. Offered unlimited access to the grounds with display of membership card. Discounted one-night stays and meals. part of a larger calling list of grounds patrons. Must present valid domestic ID or proof of address.

WEP
Work-to-Stay Work Exchange Program

For extreme tourists, skilled laborers, and spiritual practitioners. accommodations will be made free to guests staying under the work exchange program. Limited duration stays only. Work-to-stay guests required to complete a minimum number of hours of labor per week and given improvement projects.

ARP
Artist Residency Program

$800/WEEK For traveling artists, renowned internationally. Two scholarships available to subsidize costs. A pay-to-stay program from artists interested in finding inspiration from the nearby mountain views and contributing to the formation of a new nepali culture.

VIP
Very Important Person

$500/NIGHT For dignitaries, diplomats, and national officials. An all access pass to all of divyaghar facilities and services. Only a manager or supervisor can confer this status

TGP
Temporary Guest Pass

$2 PER PERSON For people who want to tour the grounds, meet employees, or have short-term business at divyghar. Guest passes can be given for free at staff discretion and expire after 12 hours. Or else they can be purchased inexpensively at the front gate

STATISTICS

LENGTH OF STAY

12.51 days
Average length, in days, of tourist stay

22.40 days
Average length, in days, of U.S. tourist stay

10,424,568
Total tourist days spent in Nepal

1,102,114
Total U.S. tourist days spent in Nepal

Note: Because of the relative distance from other countries and the inconvenience of transportation to Nepal, tourists stay for around two weeks on average. tourists from further countries (esp. countries in europe and north america), stay for nearly a month. this can be used advantageously in the building of relationships and a reliable customer base. the population is not so transient as to be intractable. moreover, with less frequent turn over of guests overhead costs such as cleaning, new supplies, and hospitality will be reduced. under this model, it is in the best interest of anyone in hospitality to retain the same guests for longer. Note that this data does not indicate whether tourists stay in the same location during the entirety of their stay.

ROOM OCCUPANCY RATE OF FIVE-STAR HOTELS

58.85%
In Nepal

62.37%
In Kathmandu

39.24%
In Pokhara

Note: disaggregated data may show very different results; individual hotels may have surprisingly high or low room occupancy rates depending upon location, exclusivity, pricing, and season. it is unwise to build a business model around these numbers knowing that they are an average of all hotels in a given region and for that reason they ignore the plausibility of fluctuation for the individual. still, observable differences between kathmandu and pokhara are important. for one, the market is much less saturated in pokhara. this is perhaps an omen of coming growth with several 5-star hotels currently under construction. it is important to remark that, even in 2015, half or more of the hotels in Nepal do not operate under the star system and could not be counted into this statistic or others like it.

PURPOSE FOR VISIT

Nationwide (%)

51.5%	*Holiday & Pleasure*
12.8%	*Trekking & Mountaineering*
9%	*Pilgrimage*
4.7%	*Official*
3.5%	*Business*
1.9%	*Conference*
0.9%	*Study/Research*
6.0%	*Other*
9.7%	*Not Specified*

Note: In a competitive hospitality environment, it would be unwise to cater to all possible target demographics. the data reveals that several of the categories of travelers constitute a profitable market base of customers. instead of taking a broad approach, wherein business travelers and conference attendees are equally catered to as artists and world explorers, it seems possible to select a few target demographics and orient services and aesthetic towards those groups, thus maximizing profit potential amongst the few and providing exceptional services within a range of targeted customers. this approach can enhance brand loyalty as well as distinguish the suite of services offered from other potentially similar enterprises. Divyaghar captures a maximum of 89% of travelers categories of interest with its suite of services and a minimum of 73.3%; there can be little question as to whether the niche approach still offer substantial market share.

SOURCES → *Government of Nepal : Ministry of Culture, Tourism & Civil Aviation, Planning and Evaluation Division, Statistical Section, Singha Durbar, Kathmandu, July, 2014*

"Travel agencies offer package tours as a general practice, which cover air tickets, hotel accommodation, food and ground transportation. Passengers have to pay extra for certain excursions, amusement, and shopping of their choice. About 50% of outbound passengers mainly spent only on their package tours; 30% spent extra money which equals half of the tour price; 7% spent extra money amounting to more than half of the tour price and the extra charge of 14% passengers equal to their tour prices (World Tourism Organization, 2008)"

Note: tourists are very interested in upfront deals, seeking to maximize the values from their expenditure, by making large purchases of goods and services pre-travel instead of continually purchasing goods and services once in-country. the opportunity to increase tourist expenditure depends on the perception of the quality of goods and services relative to the price they are offered at (i.e. their value). if tourists perceive a high level of value that was not captured in their package deal it is reasonable to believe that they will continue to purchase goods and services throughout the entirety of their trip. hence it is sensible to offer different packages to stay

Note: tourists typically travel in smaller groups of close friends or romantic partners. nepal is not yet considered family-friendly travel of the type one typically finds in vacation destinations in the domestic US where the entire clan is brought along for adventure. the general lack of infrastructure, unease of transportation, and scarcity of amenities contributes heavily to this situation. nepali tourists can mostly be interested in small package deals for one or two people, with additional charges per extra person beyond a pair. this additional revenue can be used to subsidize the purchase of extra complimentary amenities for the few families and persons who may travel with special needs (e.g. diapers, soap bars, kiddy cosmetics). per comparison research of other lodges, hotels, and stay centers, it is customary to pay extra for large parties for this or other reasons.

In 2008, 37% of Tourists came to Nepal alone. The majority of tourists who come to Nepal travel with friends over family members.

BY 2004, ONLY 105 OUT OF 607 (17.3%) OF HOTELS WERE RATED USING THE FIVE STAR RATING SYSTEM.

Note: Nepali hotels don't seem to operate as heavily off official reviews as off perceived convenience, desirability of location, or word-of-mouth recommendation and partnerships with travel agencies. Many of the hotel owners of the biggest hotels in Nepal also own travel agencies in countries internationally, including Belgium, Germany, the US, Japan, and Australia. These travel agencies are used to leverage new business. It does not appear like the amount of business a hotel receives is necessarily proportional to its official ranking amongst the other hotels in nepal, except for among the top tier luxury hotels ostensibly competing for that status.

SPECIAL PROGRAMS

Work-to-Stay Work Exchange Program

DESCRIPTION: Select guests may apply for skilled laborer positions. Painters, groundskeepers, carpenters, interior designers, chefs, electricians, plumbers are encouraged to apply. Laborers will receive chores and assignments based on their skills that they will be expected to complete before the end of their stay. Ideally, Work-to-Stay guests will live in small earthen houses with traditional architecture, separate from the main guest house, to give a sense of local living.

METHODOLOGY: Work-to-Stay guests must work a minimum of 30 hours per week, logging their tasks completed and hours spent on each task. Some assignments may require more than 30 hours a week to successfully complete. Any hour spent working in excess of the mandated 30 hours will be credited towards the guests' meals. Candidates are expected to submit a resume, personal assessment of fitness reporting any debilitating injuries they may have, a link to their professional website, and a brief 250+ words detailing their experience in their respective field and willingness to contribute to the work that must be done at Divyaghar. In all cases, Work-to-Stay guests will receive a free room. However, the duration of their stay may vary based upon variety of skills and needs at the time.

Poetry, Singing, Dance Competition ("divyadaayau")

DESCRIPTION: Quarterly, the entire staff of Divyaghar as well as all the guest quarters and administration will join together for a festival event named "Divyadayyau." A means of celebration and a joyous competition, the aim is to unify all members of the community irrespective of hierarchy or position and highlight their various talents and abilities in the arts. Attendance from all paid members of Divyaghar is strongly encouraged. This display is of great spiritual importance for the culture of Divyaghar and is also greatly entertaining for any guests who decide to attend or participate. The festival occurs once during each season, decorated thematically according to which season it occurs in. Titles are given to winners that then entitle them to certain prizes and incentives that carry on throughout the year. Each festival begins with a prayer for the continuation of Divyaghar and a request for the blessing of the grounds. Each festival ends with staff awards gifted to deserving staff members in front of the entire community.

METHODOLOGY: Competitions are separated by category, with Poetry, Dance, Music as the three major categories. Competition is advertised to local community and local members are allowed to bring up to two guests for free. Notable figures of Nepal are traditionally selected as Judges. Participants who are neither staff nor guests must apply to participate in the respective competitions. There is a nominal fee attached to non-guest and non-staff participation. Non-participating community members are charged a small fee for entry.

Artist Residency Program

DESCRIPTION: Artists, domestic and international, are encouraged to apply for our residency program which offers a competitive suite of services, and several chances to create a legacy of art work that could impact perceptions of Nepal and the region. Artists enjoy a degree of isolation from other guests, staying in a separate cottage which blends modern amenities with traditional architecture and functions as a studio space during their stay. Towards the end of their stay, artists are encouraged to lead a Live Art show demonstrating the work they were able to accomplish and explaining the methodologies they used to create it.

METHODOLOGY: Applicants are reviewed based upon a series of factors, ranked by importance in descending order: 500-750 word proposal of the planned artwork and how it is important for Nepal, a portfolio of their past works, a curriculum vitae or artistic resume, and a letter of recommendation. Space is severely limited. Artists pay a lump sum fee based on the duration of their stay. In rare cases, scholarships are made available to artists which display a strong financial need and a lot of promise. The residency fee includes the cost of their stay, a budgeted meal plan allowing for 3 complete meals a day, no-pay passes into the included services (free Stupa field trip, trips to downtown Pokhara, morning yoga, cultural immersion and language lessons) as well as all standard complimentary services offered to other residents.

STAFFING

Soft leadership, with trust and family orientation at the forefront. Direct financial rewards, meritocratic incentive structure, fair and scaled compensation. Safe and clean space, luxury/leisure amenities for employees. Training and investment in skill-building. Empowerment of low-level workers through making them stakeholders in decisions.

- Staff should expect to receive monthly payment in cash (customary in Nepal) or bi-weekly payment in checks (customary in US). Holiday bonus pay ($4/day) applies to Dashain and Tihar where employees work more than 4 hours.

- All staff are led through extensive customer service training, where they learn techniques in conflict resolution, communication, negotiation, and service. As soon as they are hired, they receive a uniform specific to their role, as well as a handbook which informs them of standard operating procedure.

- Monthly mandatory staff meetings where all attendant staff are given data and feedback about the current success of business practices and customer service interactions. Remarkable behavior should be given a spotlight by management with everyone in attendance applauding model employee behavior. Management should introduce ideas about the next direction of growth for Divyaghar. Finally, management should resolve disputes, field questions, and elicit feedback that can later be presented to upper management/owners.

- "Fair Wage" Policy – At the end of each year, employees are subject to a thorough evaluation and review by management staff. If the company was profitable and the evaluation was satisfactory, employees enjoy yearly raises in line with the inflation rate of the past calendar year. Poor performance employees will remain at the same pay grade.

- After 1 year of service, staff will be able to make 100% matched donations to an approved charity of their choice (Divine Youth Club, Nepal Orphan's Home, Maithi ghar) for up to 15% of their wages annually. Staff may at any point petition for an additional charity to be added. A charity may be added pending stakeholder approval.

- After 4 years of service, staff will be compensated with partial ownership of company on top of their normal pay. This means, they will be distributed shares from a pool of stock options, making them minimal shareholders in the company.

- After 5 years of service, staff will be provided a matched pension fund which can deduct, at their request, a percentage of their wages for a 20% match. After 10 years of service, 40% match. After 20 years of service, 50% match.

RELEVANT DATA

"In commenting on the aspects that may help explain organizational commitment, we can say that satisfaction with the physical conditions of the workplace exercise an influence on the employee's commitment to the organization. This relation-ship may be understood in terms of the importance of the physical and working context (cleanliness, lighting, temperature, etc.) in which the employee performs his tasks."

"In line with the literature, this work also confirms the significant effect that satisfaction with the reward system has on the organizational commitment of the employee, at least in the case of direct rewards. Thus, financial rewards and promotion opportunities, indirect reward are antecedents of organizational commitment. Therefore, it is logical to think that an employee who is satisfied with the way the firm rewards him or her directly for his or her contributions to the firm will be proud of the firm and even recommend it as a suitable place to work. Nevertheless, rewards referring to compensation in kind related to the job (e.g., working hours, uniform, meals) are not a clear, significant determinant on organizational commitment."

"results show that hotels where the workers express higher levels of satisfaction with corporate HR policies (e.g., level of worker autonomy, level of participation in

important decision making, training received from the firm, conflict reoslution) will have more highly committed employees."

"organizational policies, such as internal recruitment policies and the design of adequate direct rewards and incentive systems, motivate employees and at the same time avoid the existence of high rates of turnover. Another line of activities to be considered is the implementation or improvement of internal training programs, because along with the benefits derived form the new skills provided or the avoidance of obsolete knowledge training can be useful tool regarding commitment. On the other hand, managers should adopt a "soft leadership approach" to lead employees by becoming mentors and promoting trust among subordinates, meeting the employee's expectations about the relationship with his or her superior"

POSITIONS

GROUNDS GUARDS 15000 NPR
Estimated positions: 4-5 full-time security guards in morning and night shifts
▪ veterans from the civil war can be hired and trained in hospitality ▪ given custom-made kulkuri and uniforms bearing an insignia
$150/month x 5 = $750/month

GARDENERS & GROUNDSKEEPERS, 8000 NPR
Estimated positions: 1-2 full-time gardeners & landscapers
▪ subsistance farmers can be offered fellowships ▪ guests work the land during part of their stay to subsidize labor costs
$80/month x 2 = $160/month

LANGUAGE & CULTURE IMMERSION TEACHERS, 6000 NPR
Estimated positions: 2 part-time instructors
▪ nepali tutors, historians
$60/month x 2 = $120/month

RECEPTIONISTS, CUSTOMER SERVICE PROFESSIONALS, 13000 NPR
Estimated positions: 5 part-time hospitality workers
▪ trained in hospitality and socialized to work with people of all cultures ▪ offered training to speak in different languages ▪ allowed to keep their tips
$130/month x 5 = $650/month

STAFF ARTISTS / MUSICIANS, 5000 NPR
Estimated positions: 1-2 contractor musicians & artists
▪ asked to play songs regularly on the grounds ▪ allowed to receive tips, but must split 50/50 with Divyaghar
$50/month x 2 = $100/month

CHEFS, 18000 NPR
Estimated positions: 2-3 full-time cooks
▪ expected to learn and cook in different styles ▪ must be willing to work a variety of hours
$180/month x 3 = $540/month

CLEANING PERSONNEL, 8000 NPR
Estimated positions: 3 full-time cleaners
▪ trained w/ top-notch cleaning equipment
$80 x 3 = $240/month

LEGAL & ACCOUNTING, 20000 NPR
Estimated positions: 2 part-time positions
▪ two positions: lawyer & charter accountant
$200/month x 2 = $400/month

IT CONSULTANT, 4000 NPR
Estimated positions: 1 part-time professional
▪ on-call software and hardware technician
$40/month x 1 = $40/month

MEDITATION/YOGA GUIDE, 14000 NPR
Estimated positions: 1 full-time instructor
▪ must be very experienced in their field, with decent english
$140/month x 1 = $140/month

MORNING SINGER, 3500 NPR
Estimated positions: 1 contractor
▪ allowed to keep their tips
$35/month x 1 = $35/month

TOUR GUIDES, 7500 NPR
Estimated positions: 2 contracted guides
- lead trekking trips

$75/month x 2 = $150/month

DRIVER, 10000 NPR
Estimated positions: 2 full-time private drivers
- experienced in driving large vehicles

$100/month x 2 = $200/month

HOST, 9000 NPR
Estimated positions: 1-2 full-time hosts
- seats people at the restaurant

$90/month x 2 = $180/month

FLOATERS, 8500 NPR
Estimated positions: 3-4 full-time servers/bussers
- blended approach to serving

$85/month x 4 = $340/month

DISHWASHERS, 7500 NPR
Estimated positions: 1 full-time, 1 part-time washer
$130/month x 1 = $130/month

Total staff expense: $54,900 per year
($4,575 per month x 12 months per year)

VS.

In Nepal, $54,900 can employ 38 people for one year

In the U.S., $54,900 can employ 1 person for one year

SWOT ANALYSIS

Strengths

Combined capital investment strategy
Cultural collaboration
Scenic & desirable location
Customer service experience
Gratifying profit margin
Cooperative connections
Aesthetic

Weaknesses

Lack of experience in business leadership
High risk capital investment
Internal mismanagement & misallocation of resources
Underskilled workers
Direct competition with entrenched competitors
International monetary fees/regulations

Opportunities

24 Hour work-day
Purchasing power
Marginal labor costs
Inheritance of prosperity
Mild climate
Lax regulations
First-mover advantage
High-tolerance of difference
Forthcoming international developments
Existing industry protocols
Culture of hospitality
Cheap domestic goods

Threats

Currency value fluctuation
Energy deficient economy
Material cost of imported goods
Union demands
Extortion & corruption
Local non-compliance
Lack of expedient emergency services
Political instability
Culture of unprofessionalism
Prevalence of natural disasters (flooding, landslide, sinkhole, aftershocks)

Conclusion Per Warren Buffett "The investment you think is 'safe' is actually the riskiest in the world." The investment in Divyaghar is clearly surrounded by risk on all sides, internal and external. Our awareness of this risk leads to a de facto increase in our ability to manage it. In our estimation, present risk factors are adequately mitigated by strengths and opportunities. That is, the risk is well worth the reward. There are enough examples in Nepal (and other emerging economies) which reflect that proper planning can lead to success in environments with certain adverse conditions. And, certainly, environments with adverse conditions and higher barriers-to-entry yield larger returns when failure does not happen. It is necessary to not presume the inevitability of failure; adversity and insurmountability are not equivalent. An in depth look at the threats and weaknesses could inspire pessimism in the most conservative investors, however each threat necessarily improves the richness of an opportunity in the long-game.

PHASES OF COMPLETION

PHASE 0: ESTABLISHING STRUCTURE

Secure 50-150 ropanis of land in prime location

- Must be significant distance away from Competitors
- Must be within ~500m of a major road

Solidify internal agreement with Early Phase Investors

- Distribute equity and sign term sheets

Incorporate Company, Domestically and Abroad

- Establish subsidiaries where necessary to direct revenue streams

Create financial structures compliant with international law

- Consult securities lawyer, corporate lawyer and international accountant

Begin staffing process

- Use feet on the ground to start scouting visible talent and begin soft approaches
- Formulate a database of possible hires

Website & Branding build-out

- Contact graphic designer to finalize brand

PHASE 1: DEVELOP MINIMUM VIABLE PRODUCT

Begin building operational hotel/inn on site

- With cooperation of American Architect and Abari Company
- Offer provisional work to contractors based on domestic bids

Hire & Train employees

- Offer employment contracts to workers
- Create and order uniforms & equipment
- create management expectations in line with US-quality customer service

Outfit rooms

- install equipment, Implement Hotel Management Software
- Acquire all guest stay materials *(soaps, towels, linens, curtains, carpets, incense, candles)*

Create basic dining experience

- Outfit kitchen
- Hire chef
- Train staff
- Acquire kitchen materials

Develop first wave of services

- Quality assure services before launch
- Formulate a database of possible hires

Begin Full-Fledged Marketing Plan

- Start to form allegiances and partnerships

Website Launch

- Code, design, and launch website to international audience
- Post updates on building status and new partnerships

PHASE 2: SOFT LAUNCH OF MINIMUM VIABLE PRODUCT

Widely publicized opening ceremony

- Bring on celebrity ambassador/politician to open Divyaghar
- Have celebratory event with performances and photography
- Solicit attendees for local memberships
- Invite investors for free say on facilities

First wave of artists in residence & choice guests

- Begin with long-time friends of the project
- Get feedback and input from first stayers
- create management expectations in line with US-quality customer service

Function as events space for cultural programming

- Invite mandala theatre company to put on shows

- Invite spiritual retreat programs to use Divyaghar as a conference space

Restaurant open to public with TGP

- Invite international restaurant critics

PHASE 3: BUILD-OUT, BUDGET PERMITTING

Enhanced ornamentation

- Add religious and decorative ornamentation in rooms
- Commission artwork by artists wherever possible
- Acquire art-work and position in spaces on Divyaghar lot

Increased number of rooms

- Add additional space for artist residency, more enhanced stay/standard stay rooms
- Look into the creation of general facilities *(library, meditation hall)*

Better quality services in-line with feedback

- Incorporate feedback from previous phase
- Track market trends
- Re-train employees in line with new expectations

Acquire more land

- And/or pay off whatever is owed on the land

Hiring more employees

- Increasing number of customer service representatives
- Creating a salesforce/expanding marketing personnel
- Adding additional service providers on site

Expand advertising to untouched markets

- Begin scoping market trends of interntational tourists
- Deploy advertisement strategies to unconventional/untapped geographies

PHASE 4: LAUNCH OF FINAL DIVYAGHAR

Evaluation of revenue streams

- Addition/subtraction of services based on estimates
- Projection of revenue with full capacity

Evaluation of marketing strategies

- Detailed analytical observations on capacity-impact of marketing strategies

Evaluation of build-out costs

- Compare projected vs. actual costs of building and staffing
- Create share-able report made available to investors

Formal valuation of company

- Commission one or more formal appraisals of the company's worth including all assets and debts owed to date
- Project growth forward for 3+ years
- Create share-able report made available to investors

PHASE 5: GROWTH PHASE

Decision for new investment/loan

- Based on published valuation and evaluation of costs/streams
- Decide whether loan or investment is necessary for growth increase

Broad purchase of surrounding lands

- Continual land-grab in an effort to expand divyaghar facilities and create opportunities

Competitor acquisitions

- Acquiring real estate & minor hotel upstarts in various localities

Hosting conference/trainings for Nepali workers/businesses

- Convening professionals across the hospitality industry for exchange of best practices

Investments in production

- Producing cultural artifacts (artworks, media, book) for distribution and sale
- Attempt to remove divyaghar from the grid and bring it to carbon-zero status

SHAREHOLDER CRITERIA, COMPENSATION SCHEME

The Ideal Investor

Someone who is more excited about the opportunity
To build than the financial prospects.

Someone who believes wholeheartedly in the philosophy of
Divyaghar and the competency of its stakeholders.

Someone who is known to others as spiritual and
seeking avenues for spiritual growth.

Someone who has money to spend on a long-term
Investment instead of a get-rich-quick scheme.

Someone who would plan to one day stay at Divyaghar.

Someone who can offer their business, financial,
or artistic expertise.

Someone who is tolerant of risk, open to the unknown
and forgiving of mistakes.

Compensation Scheme TBD in accordance with international security laws and taxation requirements. Shareholders are recommended to seek counsel from an accountant or lawyer with a strong understanding of international practices and regulations. Early offerings will be compensated with substantial equity, while equity will both dilute and decrease in offering after multiple rounds of solicitation are accomplished. Company valuations will be periodically performed with the help of financial analysts and professional accountants to give fair readings on the value of equity.

COMPETITOR ANALYSIS

Emirates Wolgan Valley Resort & Spa

AUSTRALIA | $125 MILLION DOLLAR PROJECT

LOCATION

Emirates Wolgan Valley Resort & Spa is located 190km NW of Sydney, between the Wollemi National Park and Gardens of Stone National Park.

MAIN FEATURES

- A firm nod to traditional heritage, using architecture associated with rural Australian homes. Most construction materials were chosen to blend into the landscape, where possible natural and recycled materials were specifically chosen such as sandstone and timber that were sourced locally. All resort buildings were built to low heights so as not to impact the visual aesthetic of the surrounding wilderness. The site also boasts an 1832 original homestead built by pioneers that has been restored to its former glory.
- Most of the tradesman used in construction were from the local area, a strategy which helped develop the local economy and lowered the carbon footprint [through shorter commute times] in construction. The resort is the world's first carbon-neutral hotel. Contractors on the project were trained to prevent destruction of the environment before building. The resort owners brag that not a single tree was destroyed during its construction.
- To the effect of branding, management has explicitly declared "Not an eco-resort" , rather a "5-star resort" – a smart strategy to prevent the image of compromising on luxury. This has the additional benefit of simultaneously conjuring the feelings and images associated with top-notch services and making common the use of systems such as rain barrels to catch water and solar panels to power buildings.
- Championing a conservation aspect – with strong ecological principles. Deliberate re-planting efforts are underway, 1000s of native plants resowed in damaged areas, native pests have been re-introducted as an effort to aid local ecology. The famed Wolgan pine --- 200 million year old species akin to dinosaurs and previously thought extinct – is now in full-blown recovery. They have used the Wolgan Pine as their model and mascot, planting hundreds, even seeing it make its way into their logo.
- Kitchens are focused on local and, where possible, organic produce while still using gourmet chefs to prepare world-class recipes, including exotic mixes of spices and uncommon food items such as dragon fruit. The approach and ideology is blended/fusion cuisine borrowing the better elements from the different ethnic influences of Australia into one diverse palate experienced as such by guests. Master chef classes can be arranged for guests where they have the opportunity to learn the cuisine out of the same kitchens they eat from.
- The land is surrounded by "wild, free, and undeveloped" land, which actually belongs to two of Australia's national parks. Visitation is exclusive to guests, few are permitted to come see the land and resort without staying in order to prevent drop-in tourism. Night tours, horseback rides, and other nature interactions are offered to guests as part of their experience. Whether these services are included in guests packages remains unknown per our observations.

TAKEAWAYS

Founders were able to articulate and implement a successful business model using many of the same tactics and strategies set forth for Divyaghar.

- Sustainability & Environmental Conservation
- Cultural Conservation & Inclusion of Traditionalism
- Diverse and World-Class Cuisine Experience sourced Locally and Organically
- Tours, Classes and other Cultural Enrichment Opportunities

Branding & Marketing

- The resort is considered a luxury hotel of the highest standards, despite retaining an earthy feel and positive relationship to the surrounding environment. Mostly known for its eco-consciousness, the hotel focuses its branding on the 5-star traveler. Divyaghar may take the opposite approach, focusing on the environmental and spiritual aspects of its stay, but retaining luxury. The fact that guests will still pay high-end prices for less traditional hotel experiences is demonstrative of the concept that Divyaghar can attract high-end guests while not marketing itself as luxury stay.
- Whereas Emirates Wolgan Valley is marketed as a "de-stress" get-away featuring the high-end amenities of a spa, Divyaghar should focus on "enrichment" through expansive cultural, arts, and spiritual activities exclusively available on-site. Based on this case study and the several other places reviewed, many international hospitality places have a stronger focus on "de-stress" or "vacation" activities (candlelight dinners, massages, aromatherapy) than "enrichment" (arts shows, cultural lectures, spiritual sittings). There is large potential to take advantage of this missing market internationally and especially in the under-developed hospitality industry of Nepal.

● *Service included.*

COMPETITOR WEBSITE COMPARISON

	DWARIKA DHULIKHEL RESORT & SPA	RUPAKOT RESORT
Aesthetic	Transparencies. Attractive color palatte. Ancient mudra symbols used to create navigation buttons. Floating menu items. Panoramic images in backdrop carousel.	Image-picture-based. Scrolling carousel of images from hotel. Home page has nothing but hotel photos and click-able links. Scarce on information.
UI / Info Architecture	Intuitive navigation system. Most things click-able. Foreground can be collapsed to take a better view at backdrop carousel images. Backdrop carousel can be scrolled left-and-right by arrows at either side of screen. Information is compressed to bring additional attention to backdrop images. Requires unnecessary scrolling to read. Forms do not match the aesthetic and could use softening.	Cross-bar with drop down menus that link to separate pages. Each link is a whole new page with new images overlaid on the backdrop. Short and simple sentences, bullet points. Lots of photographs. Guests can contact through a 'contact us' form, but no direct display of comments, ratings, or feedback. Easy to navigate.
Logo	Wooden sculpture atop himalayas. Iconic and classical. Has words “Dwarika's Resort” directly underneath. Monochromatic color scheme.	Lacks artistry, simple “R” enclosed in star, easily recognizable, but also easily mistakable for similar logos.
Uniqueness	Website feels fairly fresh. The use of templates here is irrelevant since it has been customized enough to obscure. Highly responsive.	Standard template for modern website. Form-based screens for user interactivity. Responsive.
Presentation of Pricing	Prices can be looked at their website.	Pricing is not presented straight-forward. Obscured before entering information about guest stay. Easier to find pricing on TripAdvisor or similar website than on the hotel website itself.
Content	Content is short and sweet. Does not include extraneous details or excessive marketing language. Plainly descriptive. No information is presented about their employees. Website also contains no videos about their location, history or founders. All multimedia is in the form of pictures organized across pages.	Full description of philosophy available. Contents are brief; few cases does not provide enough information. No videos about their resort or location present in their official site No info about their employees.

MARKETING STRATEGY

GOALS

A Use multiple fronts to create a wave of marketing tactics intended to boost sales, create brand recognition and formulate brand identity in conjunction with targeted consumers.

B Generate notoriety and interest outside of targeted customers to engender marketing buzz and solicit interest from the general population

C Hire marketing intern(s), create affiliate programs, automate marketing tactics so that less energy may be spent by high-level management

D Create a Director of Marketing & Sales position which oversees interns and keeps detailed analytics on marketing ROI

POSITIONS

DIRECTOR OF MARKETING & SALES: Person who works hand-in-hand to create pipelines for effective outreach and builds a brand that causes increased customer interactions. Can be incentivized by a small provision of commissions.

MARKETING INTERN POSITION: The recruitment of marketing interns for low or no-pay (college credit, service hours, etc.) is a crucial strategy for dealing with the many arms and tasks of marketing. Each marketing intern can take on a total of 2 tactics at once, tackling more once she has demonstrated competency. This will alleviate the stresses of high-level management and put many more hands on deck at the marketing stage of the company.

WEBSITE

MYNEPALVISIT.COM A general marketing tool that can be launched and managed as a separate entity from Divyaghar that functions as an external source of referrals and reviews to Divyaghar and its partners. Domain is in our possession.

CELEBRITY ENDORSEMENT, BRAND AMBASSADORS

- Expected Cost: $3000 per person initial costs, larger costs for larger celebrities
- Target Demographic: Broad Nepali Audience domestic and abroad
- Tactic: pay celebrity whose image coincides with brand orientation to become a brand ambassador, and also offer them redeemable perks of free stays and/or free meals as necessary to build relationship. occassional appearances in marketing material or for divyadayyau and other charitable media-oriented events will be asked of brand ambassadors
- Expected ROI: increase in reverence for the brand, more brand recognition and identification, reduction of domestic resistance of brand
- Celebrities: Priyanka Karki, Rajesh Hamal, Anmol K.C.

LOCAL TV/RADIO ADVERTISEMENT

- Expected Cost: scalable ($750 - $2000+)
- Target Demographic: Broad Domestic Nepali Audience
- Tactic: air advertisements on local television and radio channels in order to peak community awareness surrounding Divyaghar and its projects
- Expected ROI: brand recognition, brand awareness, brand identification, reduction of domestic resistance of brand, increase in local memberships
- Channels: Gandaki TV, Annapurna FM Station, Machapuchre FM Station, Kantipur TV

SPONSORED TALENT SHOWS WITH MEDIA COVERAGE

- Expected Cost: indefinite ($500+)
- Target Demographic: Upcoming Artists, Nepali Youth, Working Age Nepali, International Internet Following
- Tactic: going to space where talent is abundant, encourag-

ing arts participation through contests and capturing footage of youth, bringing in artists from different areas, regions, and countries to inspire and work with youth

- Expected ROI: brand recognition, international notoriety, reduction of domestic resistance of brand, increase in local memberships, increase in international interest

ONLINE NEWS OUTLETS

- Expected Cost: free and cheap
- Target Demographic: Broad Asian Audience domestic and abroad, International Internet Following, Tourists searching Online
- Tactic: pay ejournalists and bloggers to post articles about Divyaghar on their websites so that their subscribers see and become aware of the brand
- Expected ROI: a wider breadth of potential customer, brand recognition, international notoriety, increase in online bookings

PARTNERSHIPS WITH TRAVEL AGENCIES

- Expected Cost: no or low-expense, commission-based commitments to agents (minor sacrifice of profit margin)
- Target Demographic: International Internet Following, US Customers, Australian Customers, European Customers, Japanese/Chinese Customers
- Tactic: contact leading travel agencies to create a relationship, nationally and internationally, across countries with frequent visitors to nepali hospitality businesses. establish commission-based compensation structures that allow for frequent referrals from outside organizations.
- Expected ROI: increased volume of sales, better brand awareness, more international notoriety and wider customer base
- Agencies: TripAdvisor, Yeti, etc.

VIRTUAL MARKETING MATERIAL

Video & Social Media Campaign

- Expected Cost: intern, video production costs (?)
- Target Demographic: International Internet Following, Future Customers, Previous Guests
- Tactic: hire videographer to create interesting content about location/culture. distribute content via social media channels to create a social media following and garner interest.
- Expected ROI: global brand opportunity, brand awareness, international notoriety, brand recognition, increase in customer loyalty

PHYSICAL MARKETING MATERIAL

Information Pamphlet

- Expected Cost: negligible production cost ($500-$700), printing costs ($500/batch), shipping costs ($75/box)
- Target Demographic: US Consumers, Travel Agencies, Foreign Affairs Offices, Brand Ambassadors and Affiliates
- Tactic: Contract graphic designer [and potentially photographer] to produce graphically compelling materials that can be distributed in tandem with word-of-mouth and left with potential customers of Divyaghar
- Expected ROI: indefinite

Gift-cards

- Expected Cost: marginal production cost, decreased margin of profit
- Target Demographic: Current Guests, Future Customers, Staff
- Tactic: Contract graphic designer to produce gift cards, use gift-card customization website to produce final product, store some on-site and keep some on person for chance distribution (incentivized through random drawings of answered feedback surveys) and as a method to get new customer base
- Expected ROI: if used properly, gift cards can inspire customer loyalty while introducing new customers to Divyaghar through exclusive, one-time offers, plus they offer an in general expected increase in brand recognition and perceived value

Clothing & Merchandise

- Expected Cost: high initial batch expense
- Target Demographic: Current Guests, Future Customers, Staff Family, General Public
- Tactic: produce t-shirts, sweaters, and hats in conjunction with a clothing company for resale at Divyaghar as a viable souvenir for guests hoping to take home memorabilia
- Expected ROI: high margin of profit per sale

HIGH-PROFILE PROGRAMS AND GUEST STAYS

- Expected Cost: pre-budgeted in-kind donations to programs (~$2000)
- Target Demographic: Gurus, Spiritual Leaders, Artists, International Internet Following
- Tactic: invite popular spiritual leaders and artists to lead their workshops and do their talks at Divyaghar for a limited audience, offer incentives to their participation such as group

discounts and in-kind donations of services. offer one-of-a-time opportunities to staff and visitors, taking pictures and memorializing the event with rituals that can be shown to visiting guests.

- Expected ROI: international notoriety, creating a firm brand identity, boosting brand awareness, solidifying ideology

CORPORATE VACATION PACKAGES

- Expected Cost: decreased profit margin on group rates
- Target Demographic: Nepali corporations, US corporations, Japanese corporations, Australian corporations, European corporations, etc.
- Tactic: approach corporations with decreased group rates offering to handle the travel logistics of their trips for top-performers or choice employees (and in specific cases, for the entire office). display other corporations who have similar packages available as incentives for increased production, include research on the efficacy of such tactics if necessary.
- Expected ROI: increased volume of sales, guaranteed customer loyalty, repeat sales opportunities

CUSTOMER REFERRAL PROGRAM

- Expected Cost: decreased profit margin on individuals
- Target Demographic: Travel Agencies, Staff, Brand Ambassadors and Affiliates, Current Customers
- Tactic: reward customer loyalty by asking new customers how they heard about Divyaghar, if they list the name of a customer who is already in the database of previous customers, it would be wise to note on that person's account that they had a successful referral. based on the possible profit margins, future stays and/or free upgrades to future stays can be offered to the person who has a history of successful referrals.
- Expected ROI: increased volume of sales, increased customer loyalty, augmented brand recognition and perceived value, sustainable customer interactions

ALLIANCES WITH MEDITATION AND SPIRITUAL CENTERS

- Expected Cost: outreach, low to no-expense (relational basis)
- Target Demographic: Spiritualists, Practicing Western Buddhists, Travelers, Adventurers, Nature Lovers, Cosmopolitan Tourists
- Tactic: contact spiritual centers nationwide (US) to facilitate strong relationships of referral from the clientel, offering discounts where necessary to incentivize participation. create "sister centers" which eventually sell Divyaghar merchandise and advocate for visits in turn for exposure to a wider network.
- Expected ROI: increased volume of sales, brand awareness worldwide, new source of referrals, sharing of best practices for approach and sales.

MATCHING DONATIONS

- Expected Cost: arbitrary, year-to-year based on profits
- Target Demographic: Social Organizations, NGOs, Charitable Societies, Spiritual Clubs, Educational Endeavors
- Tactic: through a brand ambassador, make public/visible donations to effective charities and social organizations, challenging other organizations & businesses to match money given and/or matching the money given by individual philanthropists
- Expected ROI: brand awareness, social good, solidifying brand identity and ideology, increase in reverence for the brand

ARCHITECTURAL & DESIGN NOTES

A square 74 feet on a side is 1 ropani, 1 hectare is about 19.65 ropani, and there are almost exactly 8 ropani to the acre.

BACKGROUND DETAILS OF POKHARA CLIMATE AND SOIL

The first impression of all mountain soils is, that the texture is very fine and that the samples hardly contain coarse particles. This could already be seen during the on-site sensitive tests, and the more precise sieving tests at home confirmed this, as can be seen in the schedule on right.

Location	Depth	Particle Size %	Classification	Remarks
Deurali, Deurali VDC, +650	1 ft.	10-15-50-25	clayey silt	
Deurali, Deurali VDC, +650	2 ft.	10-15-45-30	clayey silt	
Gahate, Mijure VDC, +1100	on slope	5-25-20-50	clay	soft rock
Gahatebesi, Mijure VDC, +650	on slope	5-10-50-35	clayey silt	
Gahatebesi, Mijure VDC, +500	on slope	10-25-30-35	silty clay	soft rock
Kalikasthan, Kalika VDC, +1150	2 ft.	5-20-40-35	clayey silt	soft rock
Bhaise, Kalika VDC, +750	2 ft.	5-25-40-30	clayey silt	very fine sand
Pachbhaiya, Rupakot VDC, +650	2 ft.	15-10-30-45	silty clay	silty clay
Pachbhaiya, Rupakot VDC, +750	2 ft.	15-30-30-25	silt	silt

BACKGROUND DETAILS OF POKHARA CLIMATE AND SOIL, CONTINUED Generally we can say that the mountain soils are easy too excavate, especially away from slopes and roads. Needed for the most common earth techniques (adobe, stabilized blocks and rammed earth) is a ratio of coarse particles versus fine particles of around 70 to 30%. But after testing it appeared that the ratio of the mountain soils usually is the other way around; sometimes even 15% coarse versus 85% fines! So unfortunately the texture of most tested samples is too fine for our proposed techniques.

The fact that mountain soils are very fine can be seen in the direct surroundings as well. In the dry season the mountain roads are covered with a thick layer of dust, sometimes up to a feet thick. The sky can become very hazy and visibility is low when the wind blows these fine particles into the air.

What is also worrying, is that almost all samples contain pieces of soft rock. They look like stones and gravel, but certainly are not. Different types of rock have been identified, which on the outside all look very hard, but which can be crumbled easily by pressing them between the fingers. Of course the bigger pieces can be sieved out easily. But it will be very difficult, if not impossible, to sieve out the smaller but soft rocky particles. These particles are likely to have a negative effect on the quality of stabilized blocks, which may not achieve the necessary compression during pressing. Also they may be sensitive to breaking and to erosion of its surfaces.

Soil info source: Smart Shelter Foundation, "Soil Testing in Kaski" (5.2) Test Results of Mountain Area Soils

BUILDING IN PHASES CONCEPT

Contracts offered to construction companies based on satisfaction with previous phase. if satisfaction is not reached by the end of a phase, a new contract will be drawn up with a separate company at the commencement of the next construction phase.

SPACES NEEDED

Main Guest Stays: 35 spaces, 5 VIP spaces; no differentiation between Standard Stay rooms and Enhanced Stay Rooms; strong differentiation between VIP spaces and other rooms.

Kitchen: Outfitted for large-scale food processing and production

Garden: Biodiversity amidst artwork and sitting space

Dining space: Seating space for ~80 persons

Worker Boarding House: 10 sleepers minimum, shared shower and/or toilet space; bunk style; sleeping compartments separated for conservative stayers

Artist Residencies: 3 distinct rooms/buildings using vernacular achitecture; can be "indigenous" living scenarios rather than furnishing

Meditation Hall / Yoga Space: Temple-like space for use by morning yoga sessions

Common Space: Convertible to multiple purposes for a variety of cultural events and activities.

Workspaces/Lounges for Employees: Office-like places for administration and private communication.

Storage spaces: Places to put cleaning supplies, spare toiletries, etc.

Parking space: Outside of gates/courtyard, space for deliveries, drop offs, etc.

(g) G.I. commercial coating 8 gauge	Per kg	$0.91	$0.89
(h) G.I. commercial coating 10 gauge	Per kg	$0.91	$0.89
(i) G.I. commercial coating 12 gauge	Per kg	$0.93	$0.91

4) Metal roof

(a) Metal roof 24 gauge (Medium)	Bundle	$93.60	$93.60
(b) Metal roof 26 gauge (Medium)	Bundle	$77.70	$77.70
(c) Metal roof 28 gauge (Medium)	Bundle	$55.15	$15.15
(d) Colorful Metal roof 26 gauge (Medium)	Bundle	$99.95	$99.95
(e) Colorful Metal roof 28 gauge (Medium)	Bundle	$79.66	$79.66
(f) Plain sheet 26 gauge	Per square ft	$0.36	$0.36
(g) Colored plain sheet 0.2mm	Per square ft	$0.45	$0.45
(h) Aluminum Sheet 24 gauge	Per square ft	$0.30	$0.30
(i) Carbon Fibre UPVC roofing sheet	Per square ft	$1.62	$1.62
(J) UPVC Roofing sheet 3mm	Per square ft	$1.00	$1.00
(k) Power Coating fixer	Per one	$0.80	$0.80
(l) Self tapping screw 3”	Per one	$0.80	$0.80
(m) Self tapping screw 2.5”	Per one	$0.70	$0.70
(n) Self tapping screw 2”	Per one	$0.60	$0.60
(o) Self tapping screw 1.5”	Per one	$0.50	$0.50

(p) Self tapping screw 1”	Per one	$0.40	$0.40
(q) UPVC Ridge Cover 3'7”x2'	Per one	$8.70	$8.70

5) Aluminum Frame

(a) Sliding window fitted with 5mm clear glass without net. (4'x5')	Per Sq. ft	$6.3525	$6.3525
(b) Sliding window fitted with 5mm clear glass without net. (5'x4')	Per Sq. Ft	$6.6500	$6.6500
(c) Sliding window fitted with 5mm clear glass without net. (9'x5')	Per Sq. Ft	$6.5	$6.5
(d) Sliding window fitted with 5mm clear glass without net. (7'x5')	Per Sq. Ft	$6.30	$6.30
(f) Fixed window and hinged door fitted with 5mm glass.	Per Sq. Ft	$6.90	$6.90
(g) Fixed window fitted with 5mm glass (6'x3')	Per Sq. Ft	$5.00	$5.00
(h) Glass door fitted with 12 mm glass GD	Per Sq. Ft	$14.15	$14.15
(i) Glazed window (curtain wall) with 5mm reflective glass	Per Sq. Ft	$9.80	$9.80
(j) Stainless steel railing on verandah and staircase. (2”xl”xl”)	Per Sq. Ft	$18.25	$18.25

6) Types of Cement

(a) Nepali Cement (50 kg) PPC	Per Bag	$6.20	$6.20
(b) Nepali Cement (50kg) OPC	Per Bag	$7.00	$7.00
(c) Hetauda/Udaypur Cement (50kg)	Per Bag	unavailable	$7.20
(d) Indian Cement (50kg) OPC	Per Bag	$7.20	$7.20
(e) White Cement(50 kg)	Per Bag	$15.00	$15.00

7) Cement Block

(a) Concrete Block (4” x 8” x 16”)	Each	$0.30	$0.31

(b) Concrete Block (8" x 8" x 16")	Each	$0.40	$0.41
(c) Concrete Block (8" x 8" x 16")	Each	$0.60	$0.61
(d) Concrete Block (8" x 8" x 8") Hollow	Each	$0.32	$0.33
(e) Concrete Block (4" x 12" x 12") Hollow	Each	$0.60	$0.61
(f) Concrete Block (6" x 4" x 12") Solid	Each	$0.32	$0.33
(g) Concrete Block (6" x 4" x 16")Solid	Each	$0.3780	$0.3880
(h) Concrete Block (4" x 8" x 16") Solid	Each	$0.4725	$0.4825
(i) Concrete Block (6" x 8" x 16") Solid	Each	$0.70	$0.70
(j) Concrete Block with metal support (4" x 4" x 6")	Each	$6.50	$6.50
(k) Concrete road curve (50cm x 10cm x 30cm)	Each	$1.60	1.65
(l) Concrete road curve (50cm x 12cm x 30cm)	Each	$1.9950	$2.05
(m) Cement concrete Pole with metal frames (4"x5"x76")	Each	$7.00	$7.20
(n) 3" thick Paving Block	Each	$0.2520	unavailable
(o) 1 foot long cement tile ridge	Each	$0.68	$0.68
(p) 12"x12"x4" cement window	Each	$0.50	$0.50
(q) Triangular RCC 6' x 3'	Each	$11.00	$11.00

8) Concrete Tiles

(a) 1" thick interlocking tile	Per ft	$0.45	$0.45
(b) 2" thick interlocking tile	Per ft	$0.56	$0.56
(c) 2.5" thick interlocking tile	Per ft	$0.67	$0.67
(d) Colored Tiles, additional pricing to above	Per ft	$0.06	$0.06
(e) 2.5" Hexagonal tile (4" side)	Each	$0.20	$0.20
(f) 3" thick Hexagonal tile (4" side)	Each	$0.22	$0.22

9) Bitumen Binder

9) Bitumen Binder

(a) Bitumen 80/100 grade-indian	Per Kg	$0.97	$0.85
(b) Bitumen 80/100 grade- Singapore	Per Kg	$0.99	$0.87

10) Cat ionic Bitumen Emulsion

(a) Rapid Setting(Rl) with 60% Bitumen	Per Kg	$0.70	$0.70
(b) Rapid Setting(R2) with 65% Bitumen	Per Kg	$0.71	$0.71
(c) Rapid Setting(R3) with 70% Bitumen	Per Kg	$0.83	$0.83
(d) Medium Setting(Ml) with 60% Bitumen	Per Kg	$0.67	$0.67
(e) Medium Setting(Ml) with 65% Bitumen	Per Kg	$0.71	$0.71
(f) Slow Setting (SS) wit 60% Bitumen	Per Kg	$0.75	$0.75
(g) Slurry Seal (SS) with 60 % Bitumen	Per Kg	$0.80	$0.80
(h) Anti Strip (Liquid)	Per Kg	$4.0392	$4.0392
(i) Geo-textile	Per meter	$1.4256	$1.4256
(j) Sign Board painting and lettering	Per meter	$5.94	$5.94

11) Additional Construction Materials

(a) Furniture surface smoother	Per sheet	$0.051	$0.051
(b) Gum	Per Kg	$2.05	$2.05
(c) Roslin Paint	Per Kg	$1.77	$1.77
(d) A-star Premier Paint	Per Liter	$3.15	$3.15
(e) Enamel Paint	Per Liter	$4.50	$4.50
(f) Cement Paint	Per Kg	$0.71	$0.71
(g) Aluminum Paint	Per Liter	$6.00	$6.00
(i) Zinc red oxide	Per Liter	$2.70	$2.70
(j) Distemper	Per Kg	$2.60	$2.60
(k) Lansing oil	Per Liter	$1.32	$1.32
(l) Turpentine oil	Per Liter	$1.00	$1.00
(m) Synthetic oil	Per Liter	$3.25	$3.25
(n) Plastic emulsion	Per Liter	$5.00	$5.00
(o) Zinc Paint	Per Liter	$2.10	$2.10
(p) Red Oxide	Per Liter	$1.90	1.90
(q) Good red oxide	Per Liter	$5.00	$5.00
(h) Strong glue	Per Liter	$2.00	$2.00
(i) Rubber Paint	Per Kg	$1.82	$1.82
(j) Black Japanese Paint	Per Kg	$2.43	$2.43
(k) Plywood 4mm	Per square ft	$0.2050	$0.2050
(l) Plywood 6mm	Per square ft	$0.300	$0.300

(m) Waterproof Plywood 4mm	Per square ft	$0.40	$0.40
(n) Waterproof Plywood 6mm	Per square ft	$0.45	$0.45
(o) Waterproof Plywood 9mm	Per square ft	$0.58	$0.58
(p) Waterproof Plywood 12mm	Per square ft	$0.60	$0.60
(q) Waterproof Plywood 19mm	Per square ft	$0.90	$0.90
(r) Rubber Seal	Per kg	$1.93	$1.93
(s) Standard Carving Door		$20.00	$20.00
(t) Indian Rosewood Railing		$6.50	$6.50
(u) Road Paint	Per liter	$5.75	$5.75
(v) Normal White indian wall Tile	Per square ft	$0.60	$0.60
(w) 60% colored indian wall tile (white base)	Per square ft	$0.75	$0.75
(x) Floor Tile	Per square ft	$0.60	$0.60
(y) 80% colored Floor Tile	Per square ft	$0.75	$0.75
(z) Marble	Per square ft	$1.95	$1.95
(a) Granite Marble	Per square ft	$3.95	$3.95
(b) Marble Chips 3mm		$80.05	$80.05
(c) Colorful Marble Chips 3mm		$8.854	$8.854
(d) Oxalic acid	kg	$2.43	$2.43
(e) Carborundum stone	Each	$2.26	$2.26
(f) PVC Tile	Square feet	$0.72	$0.72
(g) Waterproof compound powder	Per kg	$0.67	$0.67
(h) Waterproof compound powder (Bag)	Per liter	$2.30	$2.30
(i) Door Springs	Each	$1.50	$1.50
(j) 4" Door Hinge	Each	$0.25	$0.25
(k) 3" Door Hinge	Each	$0.15	$0.15
(l) 4" Slide Lock	Each	$0.45	$0.45
(m) 6" Slide Lock	Each	$0.60	$0.60
(n) 12" Slide Lock	Each	$1.05	$1.05
(o) 4" door handle	Each	$0.25	$0.25
(p) Matrix Locking Set	Each	$12.00	$12.00
(q) Table Locking System Set	Each	$0.80	$0.80
(r) 3/4" Curtain Holder Pipe		$0.25	$0.25
(s) 1" Curtain Holder Pipe		$0.27	$0.27
(t) Waterproof paint	Per liter	$6.07	$6.07

(u) Bitumen Washer	Each	$0.055	$0.055
(v) J Hook 8mm	Each	$0.10	$0.10
(w) Black (putting) Caulk	Per kg	$0.80	$0.80
(x) Glass (putting) Caulk	Per kg	$0.80	$0.80
(y) Weather Coating	Per kg	$8.00	$8.00
(z) Flag stone paving	Per square meter	$10.50	$10.50
(a) Concrete Admixture(silica cement)	Per kg	$2.60	$2.60
(b) Water Proofing chemical. Acrylic polymer(sic-a latex powder)	Per kg	$8.20	$8.20
(c) For water tank and basement crystallization system (sic-a 107)	Per kg	$8.20	$8.20
(d) For expansion joint treatment polysulfide	Per kg	$16.50	$16.50

12) Glass and Nets

(a) 3.5mm glass	Per square ft	$0.70	$0.75
(b) 4mm glass	Per square ft	$0.75	$0.80
(c) 5mm glass	Per square ft	$1.60	$1.65
(d) 6mm glass	Per square ft	$1.85	$2.00
(e) Stainless steel net	Per square ft	$6.70	$6.70
(f) Mosquito proof net	Per square ft	$1.12	$1.12
(g) 10 Gauge G.I. wire (50x50 mm)	Per square ft	$4.65	$4.65
(h) 10 Gauge G.I. wire (75x75 mm)	Per square ft	$3.50	$3.50
(i) 1 side waterproof 32 mm Plywood	Per square ft	$1.66	$1.66
(j) 38 mm Plywood	Per square ft	$1.44	$1.44
(k) 32mm Plywood	Per square ft	$1.27	$1.27

13) Electrical materials

(a) 0.5" Plastic tube		$0.30	$0.30
(b) 0.75" Plastic tube		$0.35	$0.35
(c) Exhaust Fan	Each	$21.00	$21.00
(d) HP electric motor	Each	$120	$120
(e) 8mm Cable wire	Per meter	$0.40	$0.40
(f) Dewatering pump		$3.30	$3.30
(g) Brass wire (14/60)		$5.50	$5.50
(i) Brass wire (23/60)		$10.50	$10.50
(j) Copper wire (3/20)	Per Coil	$19.00	$19.00
(k) Copper wire (3/22)	Per Coil	$13.00	$13.00
(l) Copper wire (7/20)	Per Coil	$48.00	$48.00
(m) Copper wire (1/18)	Per Coil	$1.15	$1.15

(n) Concentric line wire 6mm	Per meter	$0.30	$0.30
(o) Concentric line wire 25mm	Per meter	$0.85	$0.85
(p) One-way false gang switch	Each	$0.30	$0.30
(q) Two-way false gang switch	Each	$0.75	$0.75
(r) Door bell (switch only)	Each	$0.73	$0.73
(s) Indicator Lamp	Each	$0.25	$0.25
(t) Two Pin Socket	Each	$0.25	$0.25
(u) Three Pin Socket	Each	$0.35	$0.35
(v) Universal socket	Each	$0.35	$0.35
(w) Conversion socket 10 ampere fuse	Each	$0.75	$0.75
(x) Telephone Socket	Each	$0.75	$0.75
(y) 60 AMP Switch	Each	$28.00	$28.00
(z) 60AMP heavy metal switch	Each	$50.50	$50.50
(a) MCB distribution board	Each	$10.20	$10.20
(b) MCB distribution board metal	Each	$14.00	$14.00
(c) Main Switch box	Each	$37.00	$37.00
(d) Door Bell (musical device)	Each	$4.24	$4.24
(e) Normal 9” Dome Light	Each	$2.25	$2.25
(f) Better quality 9” Dome Light	Each	$3.75	$3.75
(g) 6” round light	Each	$5.50	$5.50
(h) CPL combination switch socket 5x15 ampere	Each	$2.30	$2.30
(i) 4 ft long tube light	Each	$5.50	$5.50
(j) 1 ft long mirror light	Each	$6.50	$6.50
(k) Belgium wall fancy light	Each	$5.00	$5.00
(l) Light holder	Each	$0.35	$0.35
(m) Normal Bulb	Each	$0.25	$0.25
(n) CFL light	Each	$3.00	$3.00
(o) Power socket CPL	Each	$2.40	$2.40
(p) Junction PVC	Each	$0.27	$0.27
(q) 1 way 1 gang switch	Each	$0.90	$0.90
(r) 2 gang 1 way switch	Each	$1.35	$1.35
(s) 1 gang 1 way push switch	Each	$1.10	$1.10
(t) 2 gang 1 way push switch	Each	$1.40	$1.40

(u) 3 gang 1 way push switch	Each	$1.80	$1.80
(v) 4 gang 1 way push switch	Each	$2.10	$2.10
(w) Repair Socket 75mm	Each	$1.32	$1.32
(x) Repair Socket 110mm	Each	$1.92	$1.92
(y) Ceiling Fan 48”	Each	$31.00	$31.00
(z) Simple stand fan	Each	$21.00	$21.00
(a) Standard stand fan	Each	$47.00	$47.00
(b) Wall fan	Each	$26.50	$26.50
(c) Standard wall fan	Each	$40.00	$40.00
(d) Simple table fan	Each	$26.00	$26.00
(e) Standard table fan	Each	$30.00	$30.00
(f) Bottom section galvanized steel tubular pole with one coat of red oxide primer	Per kg	$1.20	$1.20
(g) Steel tubular pole with one coat of red oxide primer	Per kg	$1.00	$1.00
(h) 9m long wooden pole	Each	$52.00	$52.00
(i) 8m long wooden pole	Each	$51.00	$51.00
(j) 30sqmm ACSR Conductor	Per km	$350.00	$350.00
(k) 50sqmm ACSR Conductor	Per km	$520.00	$520.00
(l) 100sqmm ACSR Conductor	Per km	$950.00	$950.00
(m) Disc insulator set	Per set	$16.00	$16.00
(n) Pin Insulator set	Per set	$6.50	$6.50
(o) Pin insulator tie	Per set	$0.51	$0.51
(p) D Iron shackle set	Per set	$1.84	$1.84
(q) Stay set	Per set	$12.14	$12.14
(r) Stay insulator(HT)	Each	$1.87	$1.87
(s) Stay insulator(LT)	Each	$0.66	$0.66
(t) Brass plate		$1.76	$1.90
(u) Nut Bolt(2”, 7”, 8” & 10”)		$2.15	$2.40
(v) D O Fuse set	Per set	$164.45	$164.45
(w) Lightning Arrester set	Per set	$126.50	
(x) Cable Shoes(95 or 120)	Each	$1.96	
(y) Earthing set	Per set	$65.78	$65.78
(z) Earthing pipe	Per meter	$0.66	$0.70

(a) Transformer Mounting Set	Per set	$1.84	$2.00
(b) 4 core insulation cable (70mm)	Per meter	$6.71	$6.71
(c) 75 A MCCB LG korean	Each	$58.17	$65.00
(d) 3 phase transformer, 11/0.4 KV 25 KVA 50 KVA 100 KVA 160 KVA 200 KVA 250 KVA	 Each Each Each Each Each Each	 $2000.00 $2800.00 $4200.00 $6500.00 $6500.00 $9107.00	 $2000.00 $2800.00 $4200.00 $6500.00 $6500.00 $9107.00
(e) Load Disconnect switch	Per set	$25.30	$25.30
(f) Copper Wire	Per kg	$14.30	$14.30
(g) Aluminum Binding wire	Per kg	$12.10	$12.10
(h) ABC cable (25 sq mm)	Per meter	$1.80	$1.80
(i) ABC cable (50 sq mm)	Per meter	$3.30	$3.30
(j) ABC cable (90 sq mm)	Per meter	$49.00	$49.00
(k) Armored Cable, 95 sq mm, LT	Per meter	$44.00	$44.00
(l) XLPE 11 KV 95 sq mm cable	Per meter	$35.20	$35.20
(m) XLPE 11 KV 70 sq mm cable	Per meter	$22.00	$22.00
(n) XLPE 11 KV 35 sq mm cable	Per meter	$16.50	$16.50
(o) PSC Pole 8 M	Each	$59.00	$59.00
(p) PSC Pole 9 M	Each	$66.13	$66.13
(q) PSC Pole 10.4 M	Each	$137.38	$137.38

14) Sanitary Materials

(a) Soap holder	Each	$3.00	$3.00
(b) Tap Cock	Each	$9.15	$9.15
(c) Concealed stop cock	Each	$10.00	$10.00
(d) Toilet Paper Holder	Each	$4.00	$4.00
(e) Towel Rod 0.5" x18"	Each	$5.90	$5.90
(f) Towel Rod 0.5" x 24"	Each	$6.50	$6.50
(g) PVC 50mm pipe	Per meter	$1.38	$1.38
(h) PVC 75mm pipe	Per meter	$2.62	$2.62
(i) PVC 110mm pipe	Per meter	$3.86	$3.86
(j) PVC 75mm socket	Each	$0.98	$0.98
(k) PVC plain T-75 mm	Each	$1.75	$1.75
(l) GI gate valve	Each	$8.00	$8.00

(m) Heavy GI gate valve	Each	$4.85	$4.85
(n) 0.5" Float Valve	Each	$3.50	$3.50
(o) Nozzle cock 0.5"	Each	$3.40	$3.40
(p) Nozzle	Each	$0.70	$0.70
(q) Fevicol 500gm	Each	$1.00	$1.00
(r) N/S Poly Tank	Per liter	$0.10	$0.10
(s) PVC pipe connector 0.5" x 18"	Each	$1.50	$1.50
(t) C.P flashing pipe 1.5"x24"-36"	Each	$4.90	$4.90
(u) Sink trap 1.25"	Per set	$4.75	$4.75
(v) Laboratory Sink 18"x12"x6"	Each	$13.50	$13.50
(w) Laboratory Sink 21"x17"x7"	Each	$20.00	$20.00
(x) Kitchen Sink 24"x18"x8"	Each	$23.00	$23.00
(y) Kitchen Sink 24"x18"x10"	Each	$26.00	$26.00
(z) "P" Trap	Each	$15.60	$15.60
(a) "S" Trap	Each	$16.50	$16.50
(b) Indian Pan 18"	Set	$14.00	$14.00
(c) Indian Pan 20"	Set	$15.00	$15.00
(d) Indian pan 23"	Set	$16.00	$16.00
(e) Wash Basin 18" x12"	Set	$10.00	$10.00
(f) Wash Basin 20" x16"	Set	$12.5	$12.5
(g) Wash Basin 22" x16"	Set	$14.00	$14.00
(h) "P' Trap for Pan	Each	$5.00	$5.00
(i) Pedestal	Each	$20.80	$20.80
(j) Cistern Lid	Each	$8.10	$8.10
(k) Cistern syphon	Each	$7.00	$7.00
(l) Cistern Plunger plate	Each	$1.26	$1.26
(m) Plate back Urinals 18"x14"x10.5"	Each	$8.10	$8.10
(n) Angle back urinals 17"x14.5"x13"	Each	$8.10	$8.10
(o) Square plate 23.5"x13.5"	Each	$8.70	$8.70
(p) 10 liter low level flushing system	Each	$34.70	$34.70
(q) Circular PVC net 3"	Each	$0.30	$0.30
(r) Circular PVC net 5"	Each	$0.47	$0.47
(s) Soil cast iron pipe with 2" diameter	Each	$13.30	$13.30
(t) Soil cast iron pipe with 3" diameter	Each	$18.00	$18.00
(u) Soil cast iron pipe with 4" diameter	Each	$21.00	$21.00

(v) Soil cast iron pipe with 6" diameter	Each	$41.00	$41.00
(w) Rain water cast iron pipe with 2" diameter	Each	$12.71	$12.71
(x) Rain water cast iron pipe with 3" diameter	Each	$17.50	$17.50
(y) Rain water cast iron pipe with 4" diameter	Each	$19.64	$19.64
(z) Rain water cast iron pipe with 6" diameter	Each	$71.61	$71.61
(a) GI overhead Tank 200 Gallon	Each	$71.61	$71.61
(b) GI overhead Tank 400 Gallon	Each	$168.00	$168.00
(c) Wall mixture	Each	$49.00	$49.00
(d) Mirror	Each	$6.50	$6.50

15) Metal Railing

(a) Black pipe railing 1.5" top 1" (6"diameter)		$2.00	$2.00
(b) Black pipe(square and circular) 0.75"	Per meter	$1.25	$1.25
(c) Black pipe(square and circular) 1"	Per meter	$1.5	$1.50
(d) Black pipe(square and circular) 1.25"	Per meter	$2.15	$2.15
(e) Black pipe(square and circular) 3"	Per meter	$2.90	$2.90
(f) Metal grill gate	Per kg	$1.34	$1.34
(g) Spiral ladder with 4" black pipe	Per step	$19.40	$19.40
(h) Straight ladder with width of 2'6" and two sided railing	Per step	$20.47	$20.47
(i) Black pipe railing(25x25x1.6)		$0.75	$0.75
(j) Black pipe railing(35x38x2.5)		$0.99	$0.99
(k) Black pipe railing(50x50x2.5)		$1.31	$1.31
(l) Grill 3x20 mm	Per kg	$1.52	$1.52
(m) Metal desk	Per kg	$1.73	$1.73

16) Dozer operation pricing

(a) Dozer operation in soft soil	Per square meter	$0.70	$0.70
(b) Dozer operation in hard soil	Per square meter	$0.80	$0.80
(c) Dozer operation in swamp area	Per square meter	$0.95	$0.95
(d) Dozer operation in easy rocks	Per square meter	$2.50	$2.50

(e) Dozer operation in medium hard rock	Per square meter	$6.50	$6.50
(f) Dozer operation in very hard rocks	Per square meter	$15.00	$15.00

(g) Anti Termite Treatment	Sqm	$3.37	$3.37
(h) Water-proof seal coating	sqm	$3.57	$3.57
(i) Water repellent paint	sqm	$4.51	$4.51
(j) Plaster of Paris(normal)	sqm	$1.83	$1.83
(k) Plaster of Paris(corner design)	Nos	$6.82	$6.82
(l) Plaster of Paris (corner design) type II	Nos	$15.22	$15.22
(m) Plaster of Paris(Cornice)	RM	$0.68	$0.68
(n) Staircase Railing(2" (o) square pipe balustrade, 5"x3" Hand Railing, 4"x4"x3'6" Newel post	RM	$22.47	$22.47
(p) Decorative Wooden Newel Post(4"x4"x3'6")	Nos	$31.50	$31.50
(q) Decorative cement sand plaster (1:3)	sq. meter	$2.52	$2.52
(r) Special iron gate 2"X2" square pipe frame 18 gauge black sheet all complete	sq. meter	$57.57	$57.75
(s) High build epoxy coating 400 micron on floor	sq. meter	$16.27	$16.27
(t) High build epoxy coating 400 micron on wall	sq. meter	$14.17	$14.17
(u) Machine made hexagonal concrete block 3" thick	sq. meter	$3.15	$3.15
(v) Wall putting	Per Kg	$0.68	$0.68
(w) Silica cement admixture	Per Kg	$3.15	$3.15
(x) Elastomatat rubber bering	Nos	$318.20	$318.20
(y) Rocker bering	Nos	$2700.00	$2700.00
(z) Roller bering	Nos	$4540.00	$4540.00
(a) Slab sill expansion joint	RM	$360.00	$360.00
(b) Compressive sill	RM	$180.00	$180.00
(c) Normal cat eye	Nos	$3.63	$3.63

(d) Solar stood	Nos	$31.80	$31.80
(e) Thermoplast	Per Kg	$2.72	$2.20
(f) Glass bit	Per Kg	unavailable	$2.00
(g) Water stopper 6”	RM	$3.63	$3.63
(h) Water stopper 9”	RM	$4.55	$4.55
(i) Cotta stone l” thick 3/3” thick			 $1.37 $1.26
(j) Flooring marbles l3mm thick l6mm thick			 $1.80 $1.95
(k) Ready mixed concrete Ml5 M20 M25			 $9.80 $111.00 $118.00
(l) Readymade door l) readymade core door shutter one side teak other side GI plain sheet 26 gauge water proof 2) readymade core door shutter one side teak other side fromica water proof 3) readymade core door shutter one side teak other side/water proof	 Sq.ft Sq.ft Sq.ft		 $2.66 $2.95 $2.92
(m) Paving stone l) l” thick good quality 2) l.5” good quality 3) 2” good quality 4) clading stone with wall surface in l:3 c/s motor			 $0.90 $1.05 $1.25 $2.00

RESTAURANT IDEAS

RESTAURAUNT WILL BE handled and monitored by a professional chef, preparing a mixture of traditional nepali dishes with a variety of cosmopolitan influences. All menu items will be vegetarian. Menu items change seasonally with the availability of certain fruits and vegetables. Local organic farming practices will provide the majority of the supplies needed for recipes, with the rest purchased through community farmers. On-site catering services can be offered for large groups

Complimentary breakfast is served every morning to guests with a group prayer and a breakfast bell. Guests are encouraged to eat using just their hands in line with the style of the region.

Copper (Tama ko bhardo) utensils and cookware with different scientific and religious significances are used in lieu of traditional western silverwares.

TOTAL SERVING CAPACITY

8 long tables with 10 seats a piece for a total of 80 maximum people eating at a given time. The ability to transform the eating space into a serving space to accommodate more people if the weather permits people eating outside of the hall.

SOFTWARE REQUIREMENTS & PROTOTYPES

HOTEL AND RESTAURANT MANAGEMENT SOFTWARE

1.2.0 SNS Hotel KEY Software is fully functional software to manage Hotel Front desk, POS of Restaurant with Pre Pay or Post Pay System with Final Account, designed and Developed by S&S Software's Network Research & Development.

MODULES

HOTEL FRONT DESK

Reservation / Booking, Walk-in Guest, Check In / Check Out, Guest History Management, Travel Agents/ Business Source Management, Billing (individual / Dual with restaurant), Payment mode : (Credit card / cash / Credit), Night Audit, Reservation Schedule Management, House Keeping, Maintenance Record Keeping

RESTAURANT

Inventory Manager

Multi Department Stock ▪ Stock Issue to Multi Department ▪ Ingredients Calculation ▪ Stock Valuation According to Ingredients Consumption

Point Of Sales

▪ Multi Counter / Multi User ▪ Table Wise Sales ▪ Direct Sales ▪ Direct Bill to Kitchen / Counter ▪ Compatible for Pre Bill / Post Bill

General Transaction

▪ Party Transaction (Payment / Receipt) ▪ Bank Transaction ▪ Expenses ▪ Waiter Transaction ▪ Stock Adjustment ▪ Damage

Analytical Reports

▪ Stock Analysis (Stock Ledger, Adjustment Analysis, Cost Evaluation Sales Items, Stock Valuation) ▪ Sales /Sales Return ▪ Purchase /Purchase Return ▪ Damage ▪ Service Collection Analysis ▪ Party Balance Summary / Individual Ledger ▪ Bank Analysis Summary / Detail ▪ Expenses Summary / Detail/ Title wise ▪ General: Day Book / Cash Book ▪ Year wise Analysis ▪ Sales / Purchase /Sales Return / Purchase Return

FINAL ACCOUNTING

Auto Voucher Preparation/ Manual Voucher, Account Ledgers /Ledgers Summary, Trial Balance, P/F Account, Balance Sheet

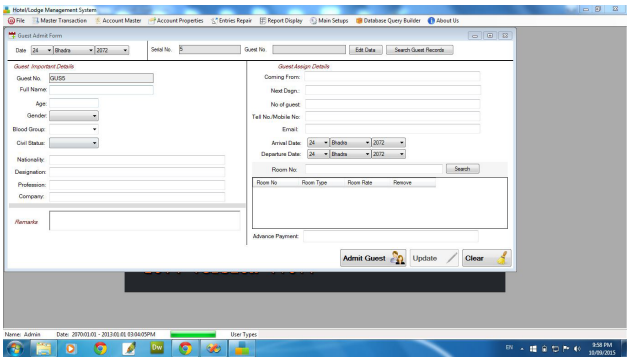

SECURITY & UTILITIES

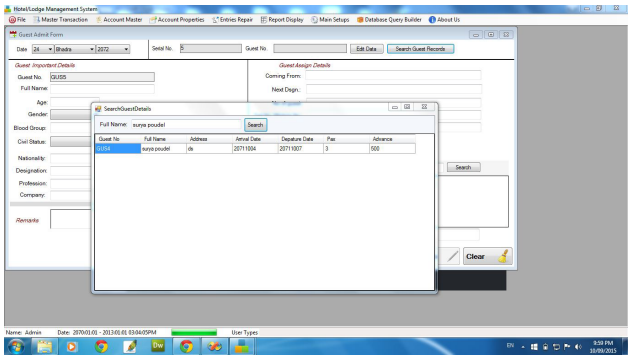

MULTI USER
USER PRIVILEGE
DEPARTMENT
DATA SECURITY AND BACKUPS
SOFTWARE TECHNOLOGY

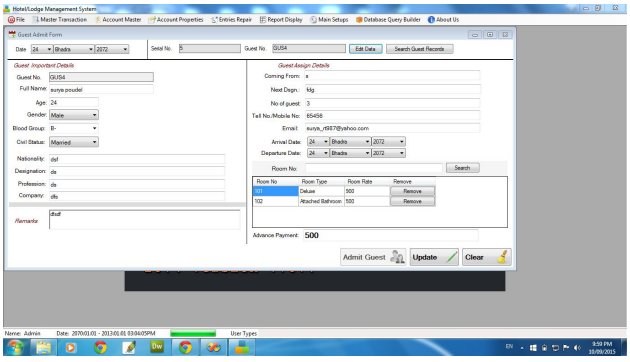

Back End : SQL 2005, Front End : VB.Net, Reporting Tools : Crystal Reports

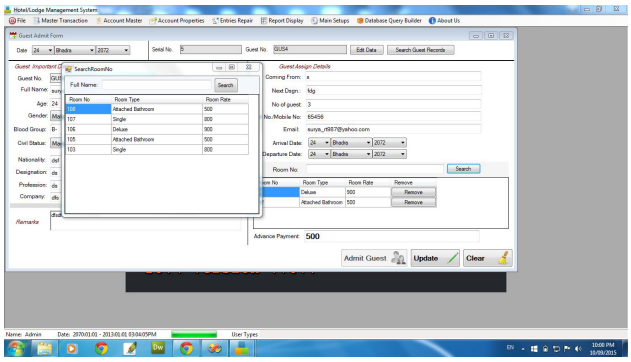

PRICE: US $1000 (Yearly renewal: $100)
